BUILD NEW FACTORY, REPAIR SHOPS

MANUFACTURED ABRASIVES FACTORY TO BE CONSTRUCTED -- Sarajevo, Oslobodjenje, 6 Jun 51

The "Herzegovina" Republic Construction Enterprise is to begin construction in mid-July, of a new factory for the manufacture of abrasives. Yugoslavia now has only one factory of this kind, in Maribor. The new factory will produce 7,000 different types of manufactured abrasives for industry, and will satisfy Yugoslavia's needs for these items in conjunction with the Maribor Factory.

The new factory will be located near the new cotton combine in Vrapcini, and thus will be able to utilize the same electrical and water equipment.

The new factory is to begin operation in the first half of 1952.

AUTOMOBILE REPAIR SHOPS BEING COMPLETED -- Sarajevo, Oslobodjenje, 30 May 51

The "Strojorad" Enterprise is the only large enterprise for the repair of automotive vehicles in Bosnia-Herzegovina. Consequently, only 49 percent of the motor vehicles that need repair can be repaired.

This problem will be solved by adding two large repair shops now under construction in Mostar and Travnik. The former will be completed in August and the latter at the end of the year.

These two shops will repair 600 vehicles the first year, and over 1,000 annually later on.

Fifty automobile mechanics are being trained at the Automechanics School in Sarajevo. They will be the technical personnel for the new shops.
